

**SWIMMING POOL SERVICE CONTRACT
BETWEEN**

**UITENHAGE UITENHAGE SWIMPOOL CENTRE CC
AND**

... .. (THE CUSTOMER)

Uitenhage Uitenhage Swimpool Centre CC provides a pool cleaning service to our customers on a weekly or every bi-weekly basis, which consists of the following procedure: -

- 1. Check the water and add chemicals using customer’ s chemicals if available, if not Uitenhage Swimpool Centre CC will supply the chemicals needed and charge accordingly.
- 2. Vacuum the pool, check suction, clear out leaves from the various baskets, scrub the sides of the pool and brush thoroughly.
- 3. Remove all leaves from pool and baskets, should any of the baskets be broken these will be replaced and charged accordingly.
- 4. The pump and motor will be checked for suction and performance.
- 5. The pool cleaner will be checked and any sticks or leaves blocking it will be removed. Replacement of hoses and minor parts will be undertaken and charged accordingly.
- 6. The filter will be backwashed and rinsed and equipment will be checked for problems.
- 7. The pool may be cleaned on the waste position if the pool is very dirty causing loss of water.
- 8. The safety net and or cover will be replaced in the same manner as we found them, however we will not be held responsible if the cover and/or safety net is torn or damaged in any way.

The following is expected from our customers to ensure a clean healthy looking pool water, especially so in summer months.

- 1. For bi-weekly contracts, we expect customers to help maintain the pool in the week in between visits.
- 2. The pool water needs to be topped up to a correct level to ensure the Pump & Motor works for at least 4 – 6 hours a day in winter and at least 8 – 12 hours in the summer months.
- 3. Uitenhage Swimpool Centre needs easy access to the property when it is due to be serviced. Should the pool water not be at the correct level and we are unable to clean and vacuum we will still charge for the cleaning. Should Uitenhage Swimpool Centre not have access when it is due to be serviced this visit will still be charged for. In order to alleviate this, we request that the cleaning be cancelled by 8am on the day of the cleaning, if not it will still be charged.

Please note the following:

- 1. The prices quoted are for pool cleaning services only and excludes chemicals, parts, spares and repairs.
- 2. **The prices quoted are for pool cleanings on the basis that the pool is clean and water reasonably blue. For green or dirty pools and should the pool turn green due to circumstances beyond Uitenhage Swimpool Centre’ s control, there will be additional chemicals and/or call outs required, which will be charged accordingly.**
- 3. There are certain times or circumstances which may cause the pool water to go green:
 - after very windy and rainy weather
 - faulty pump & motor

- faulty chlorinators
- faulty filters
- dirty filters - sand in the filter needs to be changed every 2 – 3 years
- faulty automatic pool cleaners
- excessive sand, leaves, grass cuttings which have fallen into the pool and lies at the bottom
- Lightning and thunderstorms may cause the pool water to turn green.

4. Any chemicals or parts delivered on a day that we do not clean, will incur a charge.
